You can type a search term, click the magnifying glass icon to begin a search or press the Windows logo key to open the Start screen. After locating a term, you can open a file, move or copy it, or search for other files with the same term in the right pane. Searching within the right pane of Windows 8 is possible. Open the Start screen and click the Search button on the far right. Type a term and press Enter. You'll see a search bar, the Search page and the right pane. The right pane contains search results, much like a Web search. For example, if you search for "Microsoft", the result will include files and folders with the word Microsoft in them, and it will not return files and folders that are named Microsoft. Use Spotlight to find your files in any location. Achieve data search capabilities with only the touch of a button
