Process is a journey through my painting process. I attempt to identify what I did right, what I did wrong, what I want to improve, and how I can push myself as an artist. In addition, I cover some topics related to color theory, harmonies, and essential practice in my art. This video is nice because it's concise, well edited, and follows a set schedule. It's also simple on purpose as I've written/made notes for myself throughout the video and don't want to get too complicated. I try to make it easy for myself and others to follow. I try to make new videos at least every 2 weeks so feel free to subscribe and hang out! Have any questions? Price: Quantity: Description Birthdays the Beginning is the debut album of contemporary Cajun singer/songwriter and accordionist, Jessica Broussard. Born and raised in the Louisiana bayous, Broussard put her heart and soul into this recording, fully aware of the challenges she was facing. "I knew I was writing for myself first and foremost...but I did have a feeling that people might like to hear this, and want to comment on this and I want to know what they think and what I had to overcome." During the album recording period, the musician had to overcome an injury received while dancing on stage. She suffered a torn Achilles tendon, and had to have surgery. To recover in time for recording, she left her home in Houston, Texas, and relocated to Pensacola, Florida, where she had to start over from scratch. With all of this taken into consideration, Broussard composed fifty (50) original songs for this album. The popularity of this album in both the United States and the UK has led to Broussard attending some of the world's greatest music festivals and showcases. She has toured with the likes of Garth Brooks and Vince Gill, and in doing so, has witnessed the passion and dedication to her works first-hand. This music is the hard-working origin of a Cajun musician found by her musical influences, with a jazz, pop and country base. The pace and instrumentation reflects the combination of both her training and influences. Broussard's work is very clearly that of a contemporary singer/songwriter, expressing with both heart and soul. Acknowledged by many for her beautiful vocal abilities, Broussard has also been recognized for her music style of writing. Few could have hoped for such a diversity of songs, and as such, set this album apart from others. Interviews, comments and reviews have all been overwhelmingly positive. All songs are officially released world wide and accessible to everyone via the internet. This is "Jessica Broussard, on her musical adventure and journey of a lifetime." Click on
