Surprise, Surprise On Tuesday, I got a certified letter in the mail from my Congressman's office. Once again, he had an urgent message for me. This was NOT the moment of truth in choosing a new NDA government, I knew about it before. This was the most hopeful moment, the first moment that I started thinking that he had been in touch with the new NDA government about my case. The "surprise" was that he had been tricked into sending the same announcement in the mail again! My phone is not working, so I do not know why he was not able to call me. If I knew why he was sending it to me again, I would have to stop and think about it. We know about the NDA's mail scam, this is not about those or the "special gifts". It is about the tired message they sent to us last time. So I did not think about this too long. So what is the message? "Dear Madam, The new NDA government has already communicated to Ministry of Commerce and Niti Ayog regarding your petition and your petition is under their consideration. You are required to communicate to the concerned ministry directly if you have anything further to add." Here is my conclusion: 1. He had to pay some real-time penalty (usually 1 day) to get the mail sent to me. 2. He is in complete submission to them (like the other bureaucrat's reports) 3. This is about a new communication for the new NDA government. No one else knows about it but them. If there is some proof on them, then they will think of it. 4. This is a bribe! When a government "gives you" a bribe, it is an insult to the taxpayers. No body is forced to support a party or a politician. 5. Even if the registration can be cleared, the preparation of the compliance is a task. It is not easy to come up with a brief for "minor" changes, you need the original document (and I had promised the original to the old NDA ministry, they did not have it). So my conclusion is that, the deadline for registration is going to be extended by one week. If this is not the real reason, then they will give some other excuses. When they need a bribe, why should they ask
