In 2008, AutoCAD was renamed Autodesk AutoCAD 2008. The top industry analysts issued an optimistic forecast for

---

the United States (US) commercial architectural and engineering market in 2009, according to a new report by Coherent Market Insights (CMI). According to CMI's report, Architectural and Engineering Services, Residential Projects to Remain Strong in 2009,

---

the industry is expected to increase its estimated revenue by 4.4% in 2009. This forecast is based on an estimated total volume of \$141.8 billion in 2009, with revenue for architectural and engineering services increasing at an estimated 4.4% rate over 2008.

---

Overall, the industry is expected to grow its revenue by 4.4% in 2009. "This report addresses the largest markets for architectural and engineering services (AES) in the US by volume and value, their drivers, and their prospects in 2009," said Aashish Gupta,

---

President, Coherent  
Market Insights. According  
to the report, the US  
construction,  
maintenance, and repair  
(CM&R) market is  
expected to be the largest  
segment in 2009. This  
segment's revenue is  
projected to increase by  
5.5% to \$66.9 billion in

---

2009. The US housing market is the biggest driver of this segment's growth. According to CMI, the construction market is still recovering from a prolonged downturn in the housing market that started in 2004. Between 2004 and 2006, there was a 30% reduction in the

---

supply of homes, and it has only recently begun to recover. This is why the residential construction market is expected to increase in 2009. The report also indicates that the CM&R market will be driven by the increase in the number of U.S. households. Between 1990

---

and 2002, the U.S. population increased by 22.1 million households. In addition, the U.S. population is predicted to increase by more than 50 million households by 2030. The result is an increase in the size of the housing market, which will create growth for the

---

CM&R market. The CM&R industry has been impacted by the housing and construction downturn in a big way. In 2008, CM&R's construction segment only accounted for 19% of the industry's total revenue. In contrast, in 2006 this segment represented 32% of the

---

industry's revenue. The CM&R industry will also be affected by the economic recession. In 2008, CM&R's construction segment only

AutoCAD output formats  
AutoCAD supports many output formats, including DXF, DWG, PDF, and many others. AutoCAD's internal file format is designed for direct data exchange with other AutoCAD software.

However, it is a proprietary format, and only AutoCAD supports it.

---

Translations and internationalization  
AutoCAD is available in over 30 languages (see AutoCAD for a complete list). AutoCAD 2013 introduced a new interface layout that supports multiple languages and language selections. AutoCAD is supported by

---

4,000 translators.  
AutoCAD's code and API is publicly available, providing developers with a large set of code and information for various programming languages (C++, C#, Visual Basic, AutoLISP, Visual LISP, Java, Python, C, and Assembly, for instance). AutoCAD

---

macros can be used in many other products, including Microsoft Office, and include support for other applications (including Adobe Photoshop, and SVG). Interactive drawing features AutoCAD features a host of advanced interactive drawing tools.

---

These include: Geometric tools, such as arc and circle, for defining and editing geometric shapes. Editing tools, such as text, line, and polyline tools. Annotation tools, including text, arrows, and labels. Layout tools, such as dimensions and grids. Additional parameters and

---

properties to be applied to the objects. Dynamic information from a database. Integrated databases and spreadsheet tools for application-specific data management.

Compatibility with legacy formats, including VCL, Macromedia, and CGM.

---

AutoCAD includes a comprehensive set of analysis and editing tools, including: Intersect and union to overlap or combine objects. Intersect, union, subtract, or difference to remove or isolate portions of a drawing. Measure, polar area, and area to calculate

---

areas and volume. Percent  
area, percent perimeter,  
percent central angle,  
percent chord length, and  
percent surface area.

French Paper Pin Paper  
pins from different  
countries have been  
popping up on Pinterest all  
the time lately. I made this  
one from a photo of a pin  
from Florence Holzbach's  
shop. I used a gold  
embroidery floss, a gold

---

and black thread, a red rhinestone, a rub on gold, a gold charm and some color popper beads. I used gold pearls on the pin top and on the rhinestone. I love how the gold color pops! I enjoyed the challenge of using different techniques and materials to create this

---

pin. I hope you enjoyed  
the inspiration.2
