MY PAL WRITE UP HERE IN ENGLISH: Tarnished Warlord Wiki Series Tell me what about Tarnished Warlord, is it worth playing of course yes, you must understand that this game takes a little from Zelda: Breath of the Wild and Lineage Revolution. I don't know about these games because I don't know what to say about at least turn to you guys who have experience with it. I already play Zelda a lot of time since I started playing this game so it was fun to me. I have to say that the tutorial wasn't bad at all with the fun of getting in the jeans to start playing. It took me some time to get used to it because I didn't have all of the things that I had on Zelda: Breath of the Wild but I think that after the tutorial I achieved the main purpose of this game which is the raing simulation that eliminates the story of the game. It's better to play Tarnished Warlord as a survival game you know that this game has a lot of loot and star that you have to be very careful especially when you fight enemies and boss the items are very important that you do not miss anything because after some time is the enemy gets more powerful. You must fight to survive but that's not my favorite idea of the game is that it's a guardian-survival but we all know that the game of survival was made to make fun of everyone is
