Demo SmartBarXP Product Key is a desktop enhancement utility that offers quick access to multiple interactive panes, such as audio player, clock, live news, weather and stock information, and many others. You can access these options via a bar that is placed on the left or right side of your screen and customize their appearances. The GUI is intuitive and all its functions are neatly displayed in the main window. This cross-platform tool offers users the possibility to change the look of the bar by selecting from multiple themes and enabling the transparency mode. You may opt for a digital or analog clock, and change its looks by picking one of the themes available. It is possible to set the time and date, as well as include additional clocks to the bar for multiple time zones. Moreover, it can also give you details about CPU and RAM usage, as well as network information, such as sent and received bytes, and you can add multiple shortcuts to the quick launch dialog. SmartBarXP provides customizable options when it comes to changing the position of the panes, as you can select the order in which they should appear in the main window. It is possible to add multiple panes to the bar, such as stock and weather details, dictionary, as well as create slide shows and get direct access to your emails, provided the you have specified the username, passwords, email address and server. It also features a built-in search function and you can select the engine that you want to be used, such as MSN, Google, Yahoo, and others. The audio player allows users to listen to their favorite songs directly from the window's application, and they can add the following file formats to MP3, WMA and WAV. In conclusion, SmartBarXP can be considered a decent

### SmartBarXP

SmartBarXP is a desktop enhancement utility that offers quick access to multiple interactive panes, such as audio player, clock, live news, weather and stock information, and many others.
