## Kim Jung-gi 2011 Sketch Collection Art Book Download ##HOT##

ok, i know what i'll be doing in the meantime. i'm going to buy as much art material as i can at mangaoh, and start drawing and sketching again. i think i've had enough of my own stuff to last me a while :p i'm going to start by making up to two sketch books a month, one for me, and one for my illustrator friends. i'm sure there are a ton of artists out there who would love to work with me on drawing and sketching out of this information. but i'd rather just do it for myself. i'm going to buy as much art material as i can at mangaoh, and start drawing and sketching again. i'm sure there are a ton of artists out there who would love to work with me on drawing and sketching out of this information. but i'd rather just do it for myself. i'm so happy :) it arrived today, and it is an amazing book full of sketches (the format reminded me of katsuya terada's rakuga king). a lot of amazing drawings there. the only thing i'm not happy about is that i paid a loooooo more than 60 usd for it. his drawings are awesome. i really like his military/police action images. i wonder if there is a huge following in his comic books if there is any. it seems like hes doing drawings for foreign writers, yet he doesnt seem to mention his other published works other than his sketch illustration collections. it's a beautiful book. the sketches are soft, with alot of contrast. the charcoal and pencil line renderings are quite impressive, and the work is well-executed. the detailed, elaborate sketches are particularly good. this sketchbook is definitely worth looking into.

**Kim Jung-gi 2011 Sketch Collection Art Book Download**

i'm actually reading it right now. i don't expect to give a review for the 2007 collection (i bought that a year ago), but i will check out the new work. i saw the sketchbook and thought it was pretty cool (and i'm a sucker for hardcover sketchbooks). i'm also interested in seeing the 2008 collection (and seeing the rest of his art). i think it will be very interesting to see what he is doing with black and white. this is an amazing sketchbook. thank you for the

---

recommendation. i'm a huge fan of his work. i just got the 2008 sketchbook (along with the 2007). i'll be sure to review both of them. i'm glad that they are so thin and don't have the sketchbook cover. it's a bit pricey, but it's a great sketchbook. i got the 2008 collection, and i like it a lot. i've been a big fan of his work for a while and i'm glad to have this sketchbook. the only downside is that the price is high for such a small sketchbook. i think they should change it to something cheaper. anyway, i'm happy to

---

have this. his sketches are very interesting, and i love how they are printed with an almost negative white backdrop. there's lots of variety too; from nudes to military / day-in-the-life / comical. the artist has a great style and quality of line, and he plays with proportions very well. i think he's one of the best. in my opinion, he has an extremely strong line and very confident. i think his work is a bit like leuyen pham (the girls from the cover of the sketchbook are so handsome, but i have a weakness for

---

female characters, so i like  
them all). 5ec8ef588b
