in which waters full out turns himself into a normal, english snob by going from near anonymous, forlorn and grumpy voice (ariel) into a high-pitched aristocrat playing a game of chicken with the bridge for all the world as if he were a mixture of ronnie lane, paul newman and bruce willis. its a good, solid track with clever writing, but its just not that compelling. a criminally overlooked track from the epic eight-part concept album that is as dark, as personal and as richly rewarding as a good poetry reading. its really just a showcase of gilmours style, especially his ability to often so swiftly and subtly transition from one note to the next, and a couple of classic guitar solos, one on a nice riff and one on the precise-yet-vaguely-awkwardly plucked vamp. theres a few nice things about it, but one of them is that once you hear two and a half minutes

of clunkers on the radio, you know youre in for a treat, the kind of thing that drives the band to near-apoplectic fury. its a strange place for the song to be, and its given more of its power as a pop-metal song by not attempting to do anything else than what its there to do. its a plucky, mischievous little number, and like some of their later material, its just a blast to listen to. a couple weeks back, i was struck by how flexible some of the records that made an impression on me as a kid were in becoming new music and still something i felt connected to in new and different ways. i found myself doing the same thing with wish you were here a few weeks later, and i wont pretend that there arent any other parallels. when i bought it as a 12-year-old, it was the first pink floyd record i ever bought and one of the reasons i took a renewed interest in the group. some of that renewed interest ultimately led me to give pink floyd a second look as an adult, and like before, i was unexpectedly blown away. the pink floyd from wish you were here still stands as my favorite, and that in itself is a conversation i wish i could have had with roger waters when he stood up there and said that, but thats okay, because ive always kind of had it in my head that the wall was the best pink floyd record and wish you were here

was the best pink floyd record without a doubt. thus were always going to be in contention for my top-ten. i can only suppose they were like the best heavy metal band in the world, when they were big in the late 70s, and they finally play at a rugby stadium. thats always been the objective, to get a stadium.

with how do you sleep, they seemed in a great rush to get out the studio to tour the new album and the the wall live album. opening with a song that sounds almost the same as the intro to dark side of the moon, get me to the world on time is such a tight, solid song with some interesting arrangements. waters production partner are the all-important strings so that there are couple of key moments that sound like its alien music instead of the masters american psychedelic rock is generally known for. theres a deliberate execution of syd barrett style that can seem effortless, that gels the more waters leaves out barrettisms like the gang vocals during the bridge, and the song sounds like a more advanced and mature album opener. a heavy, pounding rock song with darkly funny lyrics about the bad sugar

high (quicksand). its the kinds of delightfully surreal lyrics that sent waters into paroxysms of laughter during a pink floyd concert, though his most easily recognized jab, the near incomprehensible rewording of theres a place where i get high on things, will find its way on to saturday morning cartoons and shirtless workout videos. a funkier, forward-thinking tune about lovers and cigarette smoke that is arguably more interesting than its iconic (and often mis-sung) counterpart. its a pleasant, lazy reflection on life with that crucial element of life all on repeat, a recurring guitar figure that functions as the song knows it should but often gets in the way. a michael jackson-esque falsetto-heavy ode to the late rock star that simply cant sustain its intentionally cloying climax, despite waters increasingly desperate efforts. its not that pink floyd were incapable of morbid posturing (and they continue to be); its more that no song on their entire output, including the aforementioned trampled under foot, actually has to go to such lengths to imply the latter. 5ec8ef588b
