Some people use SMS Bombers for sending embarrassing messages to unknown numbers because they want the other person to feel ashamed or embarrassed. Using different numbers with different message, it can be funny prank and can be an easy way for jokes and laughter. SMS Bomber apps have a lot of features which can be used by users to send anonymous messages to the other person. It can also be used to annoy someone so that they feel uncomfortable in a situation. It can be done for fun but there is no harm in using it for prank purpose also. If you want to be famous or want to be seen on the social media then using SMS Bomber is the best way. It works like a game, where users are required to send messages to other mobile phones. Users needs to plan the message and then send them for a number of messages. This might sound like a simple SMS Bomber app. But it can be a prank if users are intended to send a fake message. SMS Bomber apps are apps which allow users to send floods of text messages to one another for pranking purposes. When one user sends a message, then the recipient's phone will vibrate and light up with the alert tones. This will be the notification for the recipients to answer the message. If the recipient is not able to respond to it, then a new message will be sent to the phone. If you are using SMS Bomber to prank your friends, then you should know that the app will be deleted after the pranking because the app contains the details of the sender and the receiver. All the information that has been obtained by the developer is stored and cannot be reset to initial default without the help of a hacker. So use for no more than five message and avoid sending adult oriented messages.
