Its really a ridiculous decision...I feel like everyone is just pissed off that maybe this is a good thing.

In the coming months, Adobe is rolling out a new "Collaborate" user experience to the Photoshop Captiver. It expands the previously mobile-only workspace with features designed to take advantage of features that "are better on a desktop.""We're making them easier to use in tandem on both computers, and launching a mobile iteration that ties into a great collaborative experience," says Jan Klose, Adobe vice president of Photoshop. Why do buyers have to buy 3 for the price of 2? Adobe doesn't think that going with a subscription model is the best way to engage with its customers. Adobecreate a misnomer, to hifh-ier wurds.
